

IT-Implementation of the EU Agenda for Adult Learning 2024-2025 Project

Project: 101144098 – IT-AL AGENDA 24-25 – ERASMUS-EDU-2023-AL-AGENDA-IBA

Project team

Name and function	Professional profile and expertise
Claudio Vitali (project manager)	National Coordinator, responsible for Internationalization Department of Inapp. Claudio has been named by Ministry of Labour and Ministry of Education as NC from 2015 but has been in the staff of the team implementing the EU Agenda from 2012. He is also member of Expert Group for A.L. and VET and was the project manager of E.QU.A.L. Project and Value Chain projects (EAsI-Progress, aimed to implement the Upskilling Pathways Recommendation in Italy). He collaborated in drafting the national Report on Upskilling Pathways in Italy, NIP of the VET Recommendation, several programmes such as National Plan for New skills, G.O.L (in the framework of NRRP) and is author of several surveys and communication outputs on adult learning.
Anna Sveva Balduini	Sveva is responsible of Planning and Development Department and Scientific Coordination Service in INAPP. She acted as Director of the Erasmus + National Agency and has gained a significative and relevant experience during last five years of cooperation in Adult Learning Agenda projects as researcher and internal evaluator. She has an important expertise on the implementation of the main EU policies and tools in VET field (EQUAVET, ECVET, EQF, Europass) and is fluent in French and English. Sveva is also responsible for the European Social Survey implementation in Italy
Manuela Amendola	Manuela has important experience in research activities, being member of Inapp working group for PIAAC implementation in Italy from 2011. Moreover, she co-operated in several international research activities (Cedefop, OCSE). She will be involved in analysis and surveys foreseen and especially in the task related to the WP1.
Roberto Angotti	Roberto is a senior researcher who has thirty years of experience in carrying out surveys on workers and companies. In particular, he is responsible for the Inapp INDACO Investigations and in the last two years he has been responsible for the investigations planned in the framework of the Cedefop TCR – Italy Project. He is also responsible for the Refernet project.
Claudio Bensi	Claudio is responsible for communication and relationships with media, working directly with the Inapp Presidency. He will be in charge to coordinate the communication activities foreseen in WP4.
Manuela Bonacci	Manuela has important experience in project management and research activities, being member of Inapp working group for PIAAC implementation in Italy from 2011. Moreover, she co-operated in E.QU.A.L. project Implementation (Upskilling Pathways). She will be involved in analysis and surveys foreseen and especially in the task related to the upskilling of CPIA Teachers.
Ubaldo Carrino	Ubaldo has been the responsible for the administrative management of AL Agenda Projects, EaSI projects and EEA initiatives. He has a very long experience in coordinating the team of accountants working in complex projects
Pietro Checcucci	Pietro is a senior researcher with a very long experience of research and analysis on issues concerning active ageing policies. His experience will be particularly useful during the implementation of WPs 2 and 3.
Marco Cioppa	Marco is in the staff from 2012 and has developed an important technical expertise for communication tools design and production and use of different communication channels.

	Marco will be particularly involved in communication activities. He will manage the contents selection and uploading contents on Epale Platform and Inapp Website
Simona Coscia	Administrative, with experience in 2014-2015, 2015-2017, 2017-2019, 2020-2021 and 2022-2023 AL past projects. Simona will be in charge to monitor the respect of individual engagement on project activities, checking time sheets.
Guido Dal Miglio	Guido has already worked with the Team in the previous projects, being in charge to coordinate surveys on potential synergies between different sources of funding to sustain adult learning policies and on the role of enterprise in adult learning provision. He will be involved in analysis and surveys foreseen and especially in the task related to the WP2.
Carmela Leone	Carmela is a new entry in the Team, having a considerable experience acquired in 25 years of technical assistance in ESF and ESF+ National Programmes implementation. Moreover, Carmel is involved as assistant to the National Coordinator for the EYS.
Michela Mainardi	Administrative, with past experience in 2020-2021 and 2022-2023 AL project and responsible for financial management of Value Chain Project - EaSI Programme). Michela will specifically in charge to prepare the financial contents of administrative reports.
Riccardo Mazzarella	Riccardo has important experience in research activities, especially in the field of competences validation and certification processes. Moreover, he co-operated in Value Chain project Implementation (Upskilling Pathways). He will be deeply involved in analysis and surveys foreseen and especially in the task related to the WP1.
Alessandra Mereu	As member of Planning and Development Department in INAPP, Alessandra gained 25 years of experience in checks and controls of complex and articulated working programs. She was also deeply involved in administrative and technical assistance for previous EC programs and initiatives (such as LINGUA, PETRA, NOW and Leonardo da Vinci1995/1999). She is in charge to assist the P.M. during the progress and final report drafting.
Caterina Pellegrino	Caterina will cover administrative tasks related to the monitoring of staff effort (timesheet management
Attilio Sorice	Attilio will cover all clerical needs of the project, preparing meetings, study visits and organizing and maintaining the project documentation.
Stefano Volpi	Stefano is a Senior Researcher, specialized in Public Policies evaluation. He was the past Responsible for the ISFOL (actually INAPP) Department in charge of the evaluation of impact of ESF implementation in Italy. Stefano will be involved in all research and analysis activities necessary for the realization of WPs 2 and 3)
